ALEKSANDAR MANDIC

Frontend Engineer | React, TypeScript & Salesforce

Serbia | +381 65 378 1461 | aleksandar.mndc@gmail.com | LinkedIn | GitHub

PROFILE

Frontend Engineer with 5+ years of experience delivering production web applications for global enterprise and e-commerce clients. Strong in React, TypeScript, JavaScript, Web Components, and modern CSS, with hands-on experience across Salesforce Commerce Cloud and Salesforce Experience Cloud.

TECHNICAL SKILLS

Frontend: React.js, Redux, Next.js, TypeScript, JavaScript (ES6+), Lightning Web Components, Web Components, HTML5, CSS/SCSS

Platforms & tools: Salesforce Commerce Cloud, Salesforce Experience Cloud, PWA Kit, REST APIs, React Router, Git, GitLab, GitHub, Jira, Confluence, Google Analytics, Supabase (PostgreSQL, Auth, RLS, SSR), Zod, Cloudflare D1, Cloudflare Turnstile

Testing: Jest, React Testing Library, Cypress; unit, component, and end-to-end testing

Performance: Lighthouse, Chrome DevTools, React Profiler; performance auditing and profiling

AI development tools: Codex, Claude Code, Cursor, project-specific agent instructions, AI-assisted development and code review

PROFESSIONAL EXPERIENCE

EPAM Systems | Software Engineer — Sep 2021 - Present

Selected client projects

Xsolla — *Mar 2026 - Jul 2026*

- Developed and enhanced frontend components across three repositories; refactored modal workflows and rewrote styles with vanilla-extract for a more maintainable design system.
- Built shared components, added internationalization support, and improved Site Builder settings with foundations for future skins and cosmetic updates.

Villeroy & Boch — *May 2025 - Sep 2025*

- Migrated legacy Salesforce Commerce Cloud checkout flows to PWA Kit using React and TypeScript; built reusable Buy Box, Gift Card, coupon, and promotion functionality.
- Collaborated with architecture and backend teams, contributed to refinement and code reviews, and presented live product demos to client stakeholders.

Electrolux Professional — *Jan 2025 - May 2025*

- Owned frontend delivery as the sole frontend engineer in a distributed 15+ person team; improved B2B checkout flows and delivered PLP/PDP features and Google Analytics tracking.

Jacobs Douwe Egberts — *May 2022 - Dec 2024*

- Built custom Lightning Web Components and branded UI systems for a Salesforce B2B/B2C platform covering invoices, equipment, case tracking, dashboards, and e-commerce.
- Delivered responsive, pixel-accurate interfaces and contributed to technical discussions, code reviews, and project demos with clients and UX/UI teams.

Independent Frontend Development | Frontend Developer — Mar 2021 - Aug 2021

Internal enterprise platform for a telecommunications company

- Built React and TypeScript features for employee hierarchy, role-based permissions, document review and signing workflows, and other internal operational processes.
- Developed reusable UI components, implemented routing, and integrated frontend functionality with backend services.
